## FAMILY PLANNING 2020 (FP2020)

### COMMITMENT TO ACTION

### 2015 PROGRESS REPORT

#### FP2020 FAST FACTS

**Report Findings:** By July 2015, an unprecedented 290.6 million women and girls were using modern methods of contraception, an increase of 24.4 million since the 2012 London Summit on Family Planning

**FP2020 Goal:** To reach an additional 120 million women and girls in 69 of the world's poorest countries with voluntary access to modern contraceptive methods by the year 2020

**Countries committed:** 36 commitment-making countries

**Countries with Costed Implementation Plans:** 20

**New commitments this year:**

- Governments - Madagascar, Mali, Nepal, Somalia
- Private sector - Bayer, Merck/MSD, Pfizer
- NGOs - Management Sciences for Health, International Contraceptive Access Foundation

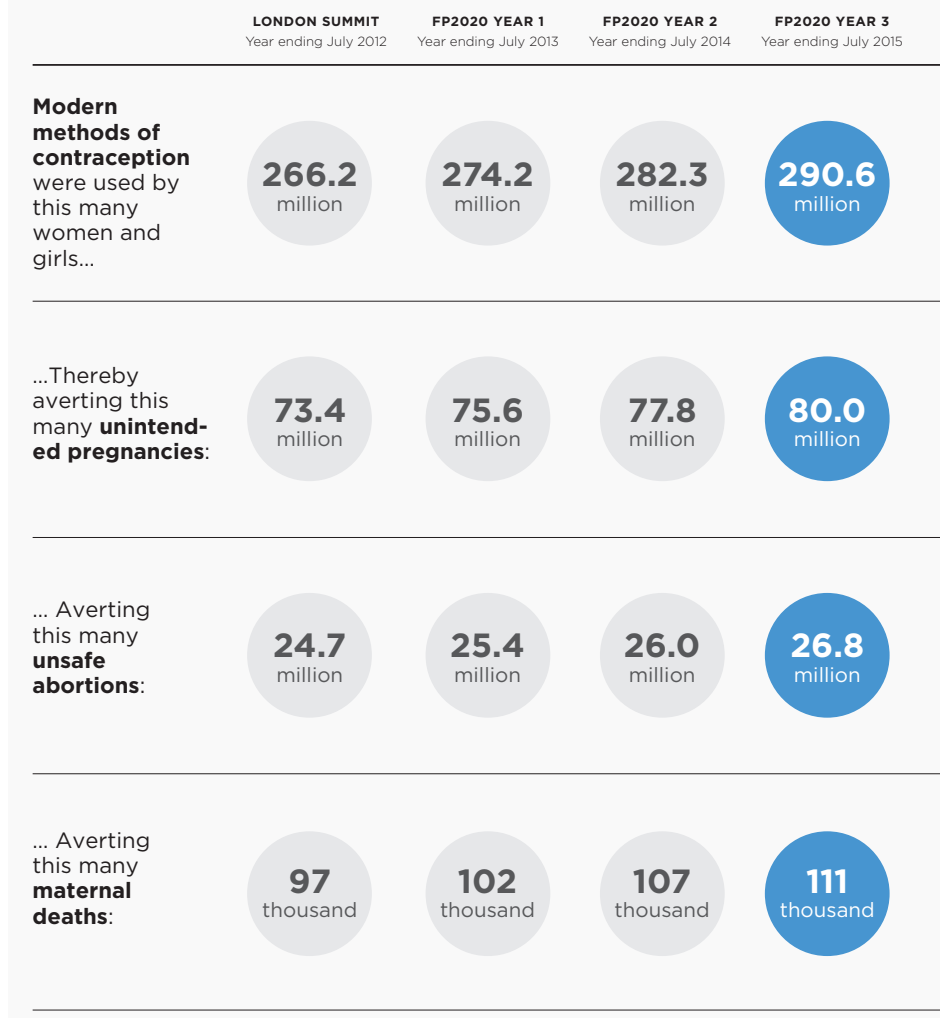

**Bilateral funding in 2014:** \$1.4 billion, 32% more than 2012

- U.S. was the largest bilateral donor in 2014, providing \$636.6 million
- UK was the second-largest bilateral donor, accounting for nearly a quarter of all funding (\$327.6 million)

**New/renewed commitments:**

- Bill & Melinda Gates Foundation
- International Planned Parenthood Federation
- Marie Stopes International
- Pathfinder International
- Jhpiego

#### IMPACT OF CONTRACEPTIVE USE IN THE 69 FOCUS COUNTRIES

## PROGRESS REPORT HIGHLIGHTS & INSIGHTS

1. FP2020 has made **significant strides**, but the latest data show FP2020 and its partners must take immediate action to accelerate progress.
2. We must reexamine our commitments to ensure we are doing all we can, and reinvigorate our efforts wherever necessary.
3. Lessons learned thus far point to three areas where strengthening efforts can help **accelerate progress**: better understanding and meeting the reproductive health needs of **adolescents**, increasing the **quality of services** women receive, and placing a greater focus on reaching the **urban and rural poor**.
